

# One Call Seats All

ASK ABOUT  
CONVENIENT FAMILY  
SCHEDULING

The American Dental Association (ADA) and most insurance plans recommend that children AND adults see a dentist every six months. We now offer expanded dental services for adults and children. We also offer convenient family scheduling that allows you and your children to be seen at the same time. For many adults, Medicaid covers preventive dental services such as cleaning, x-rays and six-month exams, so call today to schedule an appointment for the entire family.
